

Inventive and versatile web developer with over eight years of experience. Very focused on responsive, a11y, and semantic UI development. I worked as a single or small team developer and on multi-companies projects. Capable of managing pre-production meetings with designers, and reviews with clients and designers. Experience in leading, mentoring, and reviewing trainee developers.

Enjoyer in interaction design, unusual interfaces, and innovative UX. Problem solver and a quick learner. Very passionate about gamification, storytelling, and aesthetics.
